## **WE CAN'T DO IT WITHOUT YOU!**

It is a simple fact:

The Monroe Institute *would not exist* without the thousands of volunteers who give freely of their time, effort, and resources to ensure that TMI continues to evolve and thrive.

Our international volunteer community is a passionate, smart, committed group of consciousness pioneers. From the earliest days of Hemi-Sync® development at Whistlefield Labs to the global organization we are today, our volunteers work enthusiastically and extremely effectively.

In the spirit of deep gratitude and appreciation, the Institute would like to acknowledge the following volunteer organizations for their service to TMI and humanity:

- The Local Chapter Network
- The Professional Division
- The Dolphin Energy Club
- The Board of Advisors
- The Board of Directors

In addition, we honor those individuals who, while not necessarily “official” volunteers, nevertheless spend many volunteer hours spreading the word far and wide—our trainers, Sustaining members, program graduates, staff, and wonderful friends.

We see you! And we thank you from the bottom of our hearts.

Note: Hemi-Sync® is a registered trademark of Interstate Industries Inc., dba Monroe Products.
